

COVERGB

The LEDCOVE RGB is an energy efficient RGB color changing linear fixture with a unique triad LED placement for even and constant color mixing. It can produce 16.5 million deep and very bright colors which are ideal for coves, backlighting, edge lighting, effect lighting in restaurants, casinos, nightclubs or in numerous other entertainment applications or venues. 6" "Pig-Tail" power cables with DIN connectors provide end-to-end fixture placement for optimal even light distribution.

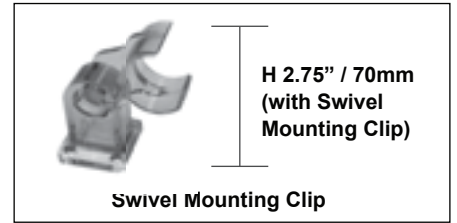

IP65

L : 1',2',3',4' (30,61,91,121cm)
Dia.: 1.0" / 2.5cm

Power Cable location allows for End-To-End positioning eliminating uneven light distribution.

DESCRIPTION

The **LED COVE RGB** is an energy efficient RGB color changing linear fixture with a unique triad LED placement for even and constant color mixing. It can produce 16.5 million deep and very bright colors which are ideal for coves, backlighting, edge lighting, effect lighting in restaurants, casinos, nightclubs or in numerous other entertainment applications or venues. 6" "Pig-Tail" power cables with DIN connectors provide end-to-end fixture placement for optimal even light distribution.

SPECIFICATIONS

CONSTRUCTION:	Polycarbonate Tube	CONTROL SYSTEMS:	LED Cove Light Controller 3 / DMX
LUMEN OUTPUT:	100 Lumens per foot	WEIGHT:	0.5Lbs per foot / 0.23 Kg per 30cm
LAMP LIFE:	50,000 Hours	DIMENSIONS:	L 1',2',3',4',8'x 1" dia. 2.75" max hgt (30,61,91,121,243cm x 2.5cm dia)
OPTICS:	115 Degrees	OPERATIONAL ENVIRONMENT:	-4F to 122F (-20C to 50C) 10%-90% Humidity
LIGHT PROJECTION DISTANCE:	3-6 Ft / 1-2m	LISTINGS:	ETL / CE / cETL
VOLTAGE:	24VDC	RATINGS:	IP65 (Interior Only)
POWER CONSUMPTION:	4 watts per foot / 12 watts per meter	WARRANTY:	2 Years
