

Graze Standoff Arms

Graze is the best wall-grazing product out there, and now it's easy to mount to a wall. These brackets fix to any wall, and provide mounting pads for the adjustable mounting hinges provided with each Graze fixture.

For Use with:

Philips Color Kinetics Color Graze
 Philips Color Kinetics eW Graze

These wall brackets are fabricated from heavy-gauge steel, zinc plated and then painted a neutral gray. They are sturdy and designed to withstand corrosion outdoors in any climate.

Mounting hinges may be mounted in either orientation on the arms, allowing for a full range of angling options for the Graze fixtures.

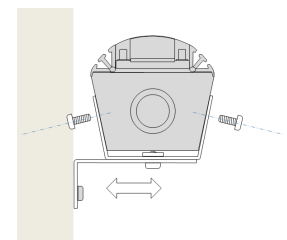

Note that the brackets are not designed to support personnel - they are rated for fixture mounting only.

Order two brackets per Graze fixture, except for the 12" Graze fixture,

where one bracket should be ordered for each fixture. The 4781.99 bracket is designed to mount a Graze fixture very close (1-2"/2.5-5cm) to a wall, with fine adjustment to optimize shadowing. 4781.99 does not support the Graze hinge mount but fixes directly to the fixture body.

Part Number	Description	✓
4781.04	One Graze Standoff Arm, 4"/10cm	
4781.08	One Graze Standoff Arm, 8"/20cm
